

Vegetable Project 2010

We are supporting local charity **The Stable Company** this year as they take over four acres of our land and turn it into organic veggie heaven!

The Gloucestershire-based charity develops similar projects throughout the local community, working with volunteers of all ages, including those who are vulnerable, or who have physical disabilities or learning difficulties. They also provide educational support and projects to local schools linking growing to the curriculum, run a Feed the Birds campaign and provide an allotment support service.

In return for the use of our land here at the manor, The Stable Company will provide us with some of the vegetables they grow to serve at the pub. Delicious!

If you know anyone in the Tewkesbury area who has a tractor to spare for a while to help prepare our field ready for use, please contact Mike Hopkins, Project Director, on the numbers or email below.

If you would like to know more about The Stable Company or join their committee, you can contact them at:
